Job opening

Trainer –1 No.
LEAP Education Society
IIT Madras Research Park

Robotic feeder, GEC Idukki

LEAP fosters team spirit

About LEAP: LEAP in the IIT-Madras Research Park provides industry-oriented Product Driven Learning to STEM institutes by focused programs from 1st to final year of B Tech/BSc/BCA/MSc/MCA. LEAP is founded by IIT professors and industry veterans, with seed funding from the Maker Bhavan Foundation, USA.

In 1st year, LEAP students work in teams to improve existing products. In 2nd year, teams design and build a working prototype to solve a problem of society. These are typically robotic devices for agriculture, healthcare, home/office automation, etc. In the 3rd and 4th years, students explore specific domains in greater depth through mini-projects, internships and major projects. In all LEAP programs, students are guided by their college faculty with help from LEAP experts.

LEAP Faculty Workshop, GRD CS, Coimbatore
